Fusees / Road Flares	15 gallon drum	20 drums (15 gal)	\$300.00	\$6,000.00
Total of all waste totals in Column E:				\$195,235.00
Total mobilization cost (Section 1 set-up fee x 24 collections):				\$12,480.00
**Cumulative Total of Waste Collected and Setup Fee (add two boxes above to come up with total):				\$207,715.00

* These estimates are based on the average of previous year's collections and are not guarantees of total waste to be collected. The County and Towns will only purchase and pay for the quantity of these items that are actually collected.

**The lowest total cost as indicated in the Cumulative Total of Waste Collected and Setup Fee will be considered the lowest bidder.

3. Please Note: All containers 75% full or less will be pro-rated at a rate proportional to the cost of a full container. For example, if the price of a 55 gallon drum of gasoline is \$100, a 50% full drum of gasoline would be invoiced at \$50.
