All Assets

**Internal Comments** **History**

**Add a comment...**

**Assets By Department and Usage**  
13 assets in 2 departments

None: 6  
DPW: 4  
Water & Sewer: 3

Legend: Often (orange), Sometimes (yellow), Rarely (green), Not Used (black), Out of Service (grey), Unknown (white)

- Backwards
- Hard to track
- Impossible to keep records or notes about
- Practically useless for reporting

# Offset Cost of Ownership

- Get a sense of how often an asset is used

Internal Usage

- Often
- Sometimes
- Rarely
- Not Used
- Out of Service

**i** This won't be shown outside your organization and is meant to help manage your assets and their use and see where you might be able to recoup some costs.

- Keep track of maintenance costs
- Report on cost of ownership by asset or department

- Create a sharing profile for underutilized assets
- Share only assets and details that you want

Sharing Visibility

Who should be able to potentially find this asset when they search? There's usually no reason to limit this. If this asset is not shared, the sharing profile doesn't matter.

This asset is...

- Shared - Locally
- Shared - Everywhere**  
This asset can be shared with towns and cities anywhere.
- Shared - Locally  
This asset can be shared with towns and cities nearby.
- Not Shared  
This asset is not visible to anyone outside this organization.

Sharing Price **i**

\$ 100

The above price is per...

- Per Hour
- Per Share**  
Regardless of how long a share takes. This is the cost for an organization to share an asset from pickup to dropoff.
- Per Hour  
If an asset is typically shared for less than a day, this is the cost per hour between pickup and dropoff.
- Per Hour Used  
If an asset can be shared for any amount of time but the cost is only for when the asset is in use.

- Set your own sharing price (even \$0)

# Share Easily

|   |   |
|---|---|
|  | <b>Asset Requested</b><br>09/17/2018  |
|  | <b>Lender Accepted</b><br>09/17/2018  |
|  | <b>Borrower Confirming</b><br>The deal was accepted by the lending organization and is awaiting confirmation by the borrower. |
|  | <b>Deal Happens</b>   |
|  | <b>Lender Finalizes</b>   |
|  | <b>Deal Complete</b>  |

- Search for and request an asset in *seconds*
- Review and accept an incoming request
- Adjust price per share, tweak pick up and drop off, figure out logistics
- Lend or borrow
- Lender confirms drop off (just like a car rental)
- Borrower is charged, lender makes money!

# Legally Sound, Covered

**Lender** guarantees that the asset is properly insured and they are legally allowed to lend it.

- The Lender identified above hereby agrees to this Deal, which is being entered into under the KwipShare Terms of Use, and said party hereby agrees to Lease the Equipment and/or Personnel identified above in accordance with the terms and conditions specified in this Deal and all of the applicable terms and conditions of the KwipShare Terms of Service.

**Borrower** guarantees that they are properly insured and that the operator has all the appropriate certifications, if applicable.

- The Borrower hereby agrees to this Deal, which is being entered into under the KwipShare Terms of Use, and said party hereby agrees to Borrow the Equipment and/or Personnel identified above in accordance with the terms and conditions specified in this Deal and all of the applicable terms and conditions of the KwipShare Terms of Service.

Current insurances already cover these sorts of deals.
